

Kseibi 70mm Right Angle Woodworking Clamp

Accurate 90° clamping made simple

Kseibi · 315010

Highlights

- Designed to hold workpieces at a 90° angle
- Ideal for gluing, screwing and corner assembly
- Aluminum alloy body for lightweight durability
- 70 mm size suits compact woodworking tasks
- Twin screw clamps help secure both sides evenly
- Useful for frames, boxes, cabinets and repairs
- Helps improve alignment during assembly
- Supports cleaner, more accurate corner joints
- Easy-to-spot bright finish on the workbench
- A practical addition to DIY and workshop setups

Key Features

- 90° Corner Holding — Keeps two workpieces positioned at a right angle to help with accurate assembly and neater joints.
- Aluminum Alloy Construction — Made from aluminum alloy for a balance of durability and easier handling during repeated workshop use.
- Twin Screw Design — The two threaded clamping mechanisms shown help apply pressure from both sides for a steadier hold.
- Compact 70 mm Size — Well suited to smaller woodworking projects, detail work and corner clamping where control matters.
- Versatile Workshop Use — A practical choice for frames, boxes, shelving components, cabinet-style assemblies and repair tasks.
