

Kseibi European Steel Wire Hand Brush 4x16 Row

Tough steel wire cleaning with hand-held control

Kseibi · 331320

Highlights

- 0.3 mm steel wire bristles for tough surface cleaning
- Hand brush format helps reach edges and narrow areas
- 4x16 row brush pattern for efficient coverage
- Firm steel wire suited to demanding workshop tasks
- Wooden handle offers a secure, traditional grip
- Ideal for maintenance, renovation and prep work
- Suitable for removing rust, paint and debris
- Hanging hole in handle for easy storage
- Good control for manual surface preparation
- Straightforward design for everyday professional use

Key Features

- 0.3 mm Steel Wire — Fitted with 0.3 mm thick steel wire bristles to tackle rust, loose paint and stubborn surface contamination.
- 4x16 Row Layout — The 4x16 row configuration gives the brush a practical working width for efficient manual cleaning.
- Wooden Handle — A shaped wooden handle provides a comfortable, controlled grip for repeated brushing strokes.
- Built for Surface Preparation — Well suited to preparing metal surfaces before painting, coating or further finishing work.
- Easy to Store — The handle includes a hanging hole, making it simple to keep the brush stored and within reach.
