

Kseibi Plastic Hand Wire Brush 4 x 15 Row

Built for surface prep and cleaning

Kseibi · 331580

Highlights

- 0.3 mm thick steel wire bristles
- 4 x 15 row brush layout
- Orange plastic handle for easy grip
- Designed for rust and paint removal
- Ideal for surface preparation work
- Slim hand brush for controlled cleaning
- Suitable for metal and hard surfaces
- Comfortable shaped handle profile
- Handy hanging hole for storage
- Useful for decorating and maintenance

Key Features

- Steel Wire Bristles — Equipped with 0.3 mm thick steel wire for effective manual cleaning, stripping and surface preparation.
- 4 x 15 Row Design — The 4 x 15 row brush pattern gives wide, even contact for efficient scrubbing across the work surface.
- Plastic Handle — Features a durable orange plastic handle designed for everyday jobsite, workshop and decorating use.
- Comfortable Grip Shape — The contoured handle helps improve control and comfort during repeated brushing and detailed cleaning tasks.
- Easy Storage — A hanging hole in the handle makes it simple to store the brush within easy reach between jobs.
