

Kseibi HDPE Faceshield with Mesh Visor

Breathable face protection for outdoor cutting work

Kseibi · 382096

Highlights

- HDPE helmet construction for durable everyday use
- Black mesh lens promotes airflow while shielding the face
- Helmet-and-visor design keeps protection in one unit
- Wide face coverage shown for outdoor cutting tasks
- Orange helmet improves visibility on the job
- Suitable for trimming, clearing and grounds maintenance
- Side adjustment hardware visible for practical fitting
- Lightweight-style mesh front supports wearing comfort
- Helps block grass, brush and larger flying debris
- Simple, work-ready design from Kseibi

Key Features

- **HDPE Helmet Build** — The helmet is made from HDPE material, giving the faceshield a durable structure suited to regular outdoor work.
- **Full Mesh Visor** — A black mesh lens covers the face area to provide protection while maintaining ventilation and practical visibility.
- **Integrated Protection** — The helmet and visor are combined in one straightforward unit, making it easy to gear up for routine tasks.
- **Comfort-Oriented Airflow** — The mesh front allows air to pass through more freely, which can help improve comfort in warm working conditions.
- **Outdoor Work Ready** — Well suited to trimming, brush clearing and general garden or grounds maintenance where flying debris is a concern.
