

KSEIBI FFP1 Particulate Respirators with Valve, 3-Piece Set

Reliable FFP1 dust protection with valve comfort

Kseibi · 391005

Highlights

- FFP1 compliant for general particulate protection
- Supplied as a convenient 3-piece set
- Integrated valve supports easier breathing comfort
- Cup-shaped design helps maintain mask structure
- Elastic strap design for quick, simple fitting
- White finish for a clean professional look
- Suitable for dusty workshop and site tasks
- Perimeter edge helps the mask sit close to the face
- Useful for sanding, sweeping and clean-up work
- Practical choice for trade and DIY users

Key Features

- FFP1 Compliant Protection — Made to FFP1 compliant standard for dependable everyday particulate protection in suitable dusty environments.
- Integrated Exhalation Valve — The front valve helps improve wearing comfort by supporting easier airflow during active tasks.
- 3-Piece Pack — Supplied as a set of three respirators, making it easy to stock up for regular jobs or shared use.
- Structured Cup Shape — The formed mask design helps keep its shape in use and provides a practical fit for day-to-day work.
- Quick On-Off Wear — Elastic strap construction allows fast fitting and removal when moving between tasks on site or in the workshop.
