

Kseibi 45° Bent Nose Pipe Wrench

Angled access, solid pipe grip

Kseibi

Highlights

- 45° bent nose design helps reach awkward angles
- Forged steel construction for strength and durability
- Serrated jaws help bite into round pipe securely
- Orange powder-coated surface aids visibility and protection
- Rubber handle improves comfort and control
- Adjustable jaw suits different pipe sizes
- Available in 1", 1.5" and 2" options
- Long handle supports leverage during turning
- Suitable for plumbing, repair and maintenance work
- Designed for confident grip on pipe and fittings

Key Features

- 45° Bent Nose Head — The angled jaw design helps you approach pipe from harder-to-reach positions and work around nearby obstructions.
- Forged Steel Build — Made from forged steel to provide the strength needed for regular pipe gripping and turning tasks.
- Rubber Handle Grip — The rubber handle offers a more comfortable and secure hold for better control while applying force.
- Powder-Coated Finish — An orange powder-coated surface adds a durable outer finish and makes the wrench easier to identify quickly.
- Multiple Size Options — Choose from 1", 1.5" or 2" sizes to match common pipe work requirements across different jobs.
