

Kseibi Chrome-Plated Forged Steel Adjustable Wrench

Forged steel versatility for everyday fastening

Kseibi

Highlights

- ❑ Forged steel construction for dependable strength
- ❑ Chrome-plated finish for a clean, durable surface
- ❑ Adjustable jaw suits a range of fastener sizes
- ❑ Available in 6" 150mm to 18" 450mm sizes
- ❑ Useful for repair, installation and maintenance work
- ❑ Long handle design supports controlled leverage
- ❑ Jaw scale visible for quick visual adjustment
- ❑ Suitable for workshop, site and home toolkits
- ❑ Hanging hole allows easy storage
- ❑ Simple all-purpose wrench for varied tasks

Key Features

- ❑ Forged Steel Build — Made from forged steel for a durable, dependable tool suited to regular fastening and adjustment work.
- ❑ Chrome-Plated Finish — The chrome-plated surface gives the wrench a clean look and a durable finish for everyday use.
- ❑ Adjustable Jaw — A movable jaw allows one wrench to handle different fastener sizes, reducing the need for multiple tools.
- ❑ Multiple Size Options — Available in 6" 150mm, 8" 200mm, 10" 250mm, 12" 300mm, 15" 375 MM and 18" 450mm versions.
- ❑ Easy to Store — The handle includes a hanging hole, making it simple to keep the wrench accessible in the workshop or van.
