

Kseibi PU Coiled Air Hose

Compact air delivery with flexible PU performance

Kseibi

Highlights

- PU construction for flexible handling
- Coiled design helps reduce clutter
- Springs back for easier storage
- Bright orange finish is easy to spot
- Suitable for general air tool use
- Fitted with end connections
- Available in 5M, 10M and 15m lengths
- Helps keep work areas tidier
- Compact form when not fully extended
- Ideal for garages and workshops

Key Features

- PU Hose Construction — Made from PU for a flexible feel that supports easier handling during everyday compressed air tasks.
- Coiled Spiral Design — The spiral hose format stays compact when not stretched out, helping reduce tangles and floor clutter.
- Length Options — Available in 5M, 10M and 15m variants so you can match the hose length to your working area.
- Workshop-Ready Visibility — The bright orange colour shown in the image makes the hose easier to see in active workspaces.
- Ready with End Fittings — End connections are fitted on the hose, making it suitable for integrating into your air line setup.
