

Kseibi Aluminium Telescopic Garden Shear with Cut & Hold

Cut high growth with reach and control

Kseibi

Highlights

- Aluminium alloy construction for lighter long-reach handling
- Telescopic design reaches higher branches from the ground
- Cut & Hold head helps catch cut stems as you prune
- Integrated pruning saw adds versatility for tougher growth
- Available in 1.2-2.2m, 1.8-3.0m and 1.8-4.0m sizes
- Useful for pruning trees, shrubs and overhead garden growth
- Helps reduce the need for ladders in routine trimming
- Long shaft improves access into dense or awkward areas
- Designed for cleaner removal of small branches and stems
- Supplied in hanging card packing

Key Features

- Telescopic Reach — Extending pole design helps you prune higher growth and awkward spots while working from the ground.
- Cut & Hold Function — The pruning head is designed to grip cut material, helping you remove stems more neatly and with better control.
- Aluminium Alloy Body — Made from aluminium alloy to balance strength with easier handling over longer reach applications.
- Integrated Saw Blade — The head includes a pruning saw, giving you an added option for tougher or thicker garden growth.
- Choice of Sizes — Available in 1.2-2.2m, 1.8-3.0m and 1.8-4.0m versions to suit different pruning heights and jobs.

Variants & References

size	Internal Ref.
1.2-2.2m	143053

1.8-3.0m	143055
1.8-4.0m	143060

Specifications

Material	Aluminium Alloy
Tool type	Telescopic garden shear with pruning saw
Head style	Cut & Hold
Packing	Hanging Card Packing
