

KSEIBI Forged Steel Axe with Wooden Handle

Forged for dependable chopping

Kseibi

Highlights

- ❑ Forged steel axe head for durable everyday use
- ❑ Drop forged carbon steel construction
- ❑ Ground and high-frequency hardened head
- ❑ Black finish head with practical textured coating
- ❑ Natural-colour wooden handle for classic feel
- ❑ Curved handle shape supports controlled swings
- ❑ Available in 600G and 800G sizes
- ❑ 800G version includes rubber protective cover
- ❑ 800G version uses black resin adhesive in head hole
- ❑ Suitable for chopping and general outdoor tool tasks

Key Features

- ❑ Forged Steel Head — The axe head is made from forged steel and drop forged carbon steel for dependable strength in regular chopping and cutting tasks.
- ❑ Hardened Working Surface — A ground, high-frequency hardened finish helps support a tough, work-ready edge for repeated use.
- ❑ Wooden Handle Control — The natural-colour wooden handle provides a traditional grip feel and a curved shape that helps with comfort and handling.
- ❑ Black Finish Head — The head features a black finish with a sprayed textured coating for a clean, durable-looking appearance.
- ❑ Two Weight Options — Available in 600G and 800G versions, making it easier to match the axe to your preferred balance and task type.
