

Kseibi Classic-C Air Blow Gun with 1/4" NPT Connector

Targeted air cleaning, your way

Kseibi

Highlights

- Aluminum alloy body for lightweight everyday handling
- Available in short nozzle and long nozzle versions
- 1/4" NPT connector as pictured for air line connection
- Black powder-coated gun body on both variants
- Long nozzle version helps reach recessed areas
- Short nozzle version suits close-range blow-off tasks
- Classic pistol-grip shape for familiar control
- Slim metal nozzle supports targeted airflow
- Ideal for cleaning tools, benches, parts and equipment
- Supplied in blister card packing

Key Features

- Aluminum Alloy Construction — Built from aluminum alloy for a balance of light weight and durability in regular workshop use.
- Two Nozzle Options — Available with a short nozzle for general blow-off work or a long nozzle for reaching tighter spaces.
- 1/4" NPT Connector — Fitted with the pictured 1/4" NPT connector for connection to compatible compressed air systems.
- Controlled Trigger Operation — The trigger-style design gives you direct, comfortable control when cleaning surfaces, parts, and equipment.
- Protective Black Finish — Both variants feature a black powder-coated gun body for a clean appearance and added surface protection.
