

Kseibi Walby Pattern Bricklaying Trowel with Wood Handle

Polished control for everyday bricklaying

Kseibi

Highlights

- High quality tool steel construction
- Polished blade for smooth mortar movement
- Walby pattern for controlled bricklaying work
- Available in 5", 6", 7" and 8" sizes
- Suitable for laying, spreading and shaping mortar
- Black wooden handle on selected variants
- Carbon steel cutter head on 6", 7" and 8" variants
- Traditional trowel profile for masonry tasks
- Easy to wipe clean after use
- Designed for trade and DIY brickwork jobs

Key Features

- High Quality Tool Steel Blade — Made from high quality tool steel for dependable performance in routine bricklaying and masonry tasks.
- Polished Working Surface — The polished finish helps the blade move through mortar smoothly and supports easier cleanup after the job.
- Walby Pattern Shape — The Walby pattern blade is suited to controlled pickup, spreading and shaping of mortar during brickwork.
- Wood Handle Grip — Selected variants feature a black wooden handle that offers a classic feel and steady control in hand.
- Multiple Size Options — Choose from 5", 6", 7" and 8" sizes to match the scale of the task and your preferred handling.
