

Kseibi PVC Cable Cutter with Polished Carbon Steel Head

Clean cuts for cable and PVC

Kseibi

Highlights

- #45 carbon steel cutting head
- Polished head for a clean, professional finish
- Designed for cable and PVC cutting tasks
- Smooth plastic handles for comfortable grip
- Bright orange handles are easy to identify
- Compact plier style for controlled hand use
- Available in 160 mm and 200 mm sizes
- Suitable for trade, maintenance and DIY work
- Blister card packed for simple retail display
- Kseibi hand tool for everyday cutting jobs

Key Features

- Carbon steel construction — The cutting head is made from #45 carbon steel for dependable strength in regular cable and PVC cutting applications.
- Polished cutting head — A polished head gives the tool a clean finish and helps maintain a professional look in daily use.
- Comfortable handle design — Smooth plastic handles offer a secure, comfortable feel for controlled cutting and repeated hand use.
- Two practical sizes — Available in 160 mm and 200 mm options, so you can choose the size that best fits your tasks and access needs.
- Made for everyday use — A practical cutter for electricians, installers, maintenance work and general workshop or home tool kits.
