

Kseibi Classic Wood Handle Scraper

Classic control for clean surface prep

Kseibi

Highlights

- High quality tool steel construction
- Polished blade for smooth surface contact
- Traditional wooden handle for a familiar grip
- Available in sizes from 25 mm to 150 mm
- Suitable for scraping, filling and surface prep
- Broad blade shape supports even application
- Simple, durable design for regular workshop use
- Mirror-polished finish specified on selected variant
- #45 carbon steel blade specified on selected variant
- Ideal for DIY, decorating and repair work

Key Features

- High Quality Tool Steel — Made from high quality tool steel for the strength and rigidity needed in everyday scraping and preparation work.
- Polished Blade Finish — The polished surface helps the blade move smoothly across the work area for controlled spreading and scraping.
- Classic Wooden Handle — The wood handle provides a traditional hand feel that many users prefer for steady, comfortable control.
- Useful Size Range — Available in widths from 1 inch 25 mm to 6 inch 150 mm to suit detail work as well as wider surface coverage.
- Versatile Workshop and Decorating Tool — Well suited to applying filler, scraping surfaces and preparing wood and other materials before finishing.
