

Kseibi TCT Concrete Drill Bit with Round Shank

TCT-tipped drilling for concrete jobs

Kseibi

Highlights

- Carbon steel body with TCT head
- Designed for concrete and masonry drilling
- Round shank fits compatible drills
- Spiral flute helps clear drilling dust
- Spray-painted surface finish
- Available from 3.0 x 60mm to 25 x 160mm
- Suitable for trade and DIY tasks
- Strong, straight body for controlled drilling
- Wide size range for varied fixing jobs
- Practical choice for tough building materials

Key Features

- TCT Cutting Head — The TCT head provides a hard-wearing cutting tip suited to drilling into concrete and other masonry materials.
- Carbon Steel Construction — A carbon steel body gives the bit solid strength for repeated use in demanding drilling applications.
- Round Shank Fit — The round shank design offers straightforward compatibility with drills that accept round shank bits.
- Spiral Flute Design — The visible spiral flute helps remove dust from the hole as you drill for smoother progress.
- Broad Size Selection — Choose from sizes ranging from 3.0 x 60mm to 25 x 160mm to match light-duty and larger-hole work.
