

Kseibi ABS Contour Gauge

Copy complex shapes with ease

Kseibi

Highlights

- Designed to copy irregular shapes and contours
- ABS construction for lightweight durability
- Ideal for flooring, tiling, trim and woodworking
- Captures edges around pipes, corners and moldings
- Helps reduce repeated measuring and recutting
- Ruler-style scale on the body aids alignment
- Fine profile pins create a clear shape outline
- Available in 250mm and 500mm sizes
- Useful for renovation and fitting tasks
- Simple to press, trace and transfer

Key Features

- Accurate shape copying — Captures the outline of curved, uneven and hard-to-measure surfaces so you can transfer profiles onto your material.
- ABS body construction — Made from ABS for a practical balance of durability and low weight, suited to regular use on site or in the workshop.
- Built-in measuring scale — The ruler-style markings on the body help with positioning, alignment and repeatable marking during fitting work.
- Two size options — Choose from 250mm or 500mm lengths to suit detail work, wider profiles or larger obstacles.
- Versatile trade use — Well suited to flooring, tile fitting, trim installation, woodworking and other measuring and marking jobs.

Variants & References

size	Internal Ref.
10" 250mm	304035
20" 500mm	304040
