

Kseibi Brass-Coated Crimped Cup Brush

Built for fast surface prep

Kseibi

Highlights

- Brass-coated crimped cup brush for surface cleaning
- Ideal for rust, loose paint and scale removal
- Cup shape covers wider surface areas efficiently
- Crimped wire offers flexible brushing action
- Available in 3", 4" and 5" size options
- Fitting options include M10 and M14 threads
- Selected variants use copper-plated wire
- 0.3 mm wire thickness on listed M14 variants
- Orange cup body shown for easy identification
- Supplied in double blister packing

Key Features

- Crimped Wire Design — The crimped wire layout provides a flexible brushing action that suits routine cleaning, surface preparation and removal of loose contaminants.
- Brass-Coated Construction — Brass-coated wire is designed for dependable prep work on metal surfaces where controlled cleaning is needed before coating or repainting.
- Multiple Size Options — Available in 3", 4" and 5" variants, giving you the right brush diameter for smaller detail work or broader surface coverage.
- Common Thread Fitments — Choose from M10 or M14 connection options to match compatible tools and keep your setup aligned with the job at hand.
- Trade-Ready Packaging — Supplied in double blister packing for practical handling, storage and presentation in workshop, retail or site environments.
