

Kseibi Crimped Cup Brush with M14 Thread

Built for fast, reliable surface prep

Kseibi

Highlights

- Crimped cup brush for surface cleaning and preparation
- Coated steel construction for jobsite durability
- Steel wire fill for rust, paint and corrosion removal
- M14 thread fitting for compatible power tools
- Available in 3in, 4in and 5in sizes
- Cup shape supports broad surface contact
- Suitable for metal cleaning before refinishing
- Orange cup is easy to identify in the workshop
- 0.3 mm wire specified on 4in and 5in variants
- Good choice for fabrication, maintenance and repair

Key Features

- Crimped Steel Wire — Steel wire construction provides effective brushing action for removing rust, loose paint and surface contamination.
- Cup Brush Profile — The cup-shaped design offers wide contact for efficient cleaning on larger surface areas and along edges.
- M14 Thread Mount — Each size in the range uses an M14 fitting for secure attachment to compatible tools.
- Size Options for Different Jobs — Available in 3 inch, 4 inch and 5 inch versions to match lighter cleaning work or larger-area preparation.
- Coated Steel Body — The coated steel construction is built for regular workshop, maintenance and decorating preparation tasks.
