

Kseibi PROGRIP Square-Notched Trowel 280 x 120 mm

Consistent adhesive spreading with confident grip

Kseibi

Highlights

- 280 x 120 mm blade for efficient coverage
- Square-notched edge for even adhesive combing
- High quality tool steel blade construction
- #45 carbon steel blade for dependable strength
- 0.7 mm blade thickness for controlled spreading
- Polished surface supports smooth material flow
- Anti-rust coating helps protect the blade
- PROGRIP handle for secure, comfortable control
- Black TPR grip areas improve handling comfort
- Suitable for wall and floor tiling tasks

Key Features

- Square-Notched Blade — The square-notch edge helps comb adhesive into a consistent pattern for more controlled tile installation work.
- High Quality Tool Steel — Made from high quality tool steel with a #45 carbon steel blade for reliable strength and everyday jobsite use.
- Polished Anti-Rust Finish — The polished blade surface is finished with an anti-rust coating to support durability and smoother spreading.
- Comfortable PROGRIP Handle — The two-tone orange and black handle is shaped for a secure hold, with black TPR grip areas for added comfort.
- Practical Working Size — The 280 x 120 mm format offers a useful balance of coverage and control for adhesive application across tiling surfaces.
