

Kseibi PVC End Cutting Nipper

Clean cuts with close-control access

Kseibi

Highlights

- ❑ Made from durable #55 carbon steel
- ❑ End cutting jaw helps cut close to the surface
- ❑ Black surface with polished head finish
- ❑ Smooth orange plastic-coated handles
- ❑ Comfortable grip for repeated hand use
- ❑ Available in 160mm, 180mm and 200mm sizes
- ❑ Bright handle color is easy to spot in a toolbox
- ❑ Suitable for workshop, site and maintenance tasks
- ❑ Compact head shape supports controlled cutting
- ❑ Supplied in hanging card packing

Key Features

- ❑ Carbon steel body — Manufactured from #55 carbon steel for dependable strength and durability in regular cutting applications.
- ❑ End cutting design — The jaw profile is designed for close, controlled cutting where access near the surface is important.
- ❑ Polished head finish — A polished cutting head paired with a black surface gives the tool a practical, work-ready finish.
- ❑ Plastic-coated handles — Smooth orange plastic-coated handles provide a comfortable grip and easy handling during repeated use.
- ❑ Three size options — Choose from 6 inch 160mm, 7 inch 180mm or 8 inch 200mm to match your task and preferred leverage.
