

Kseibi Fiberglass Mesh Tape

Reinforce repairs with dependable fiberglass mesh

Kseibi

Highlights

- Fiberglass construction for reinforcing joints and repair areas
- Open mesh design visible in the tape structure
- 50mm tape width suits common seam and patch work
- White finish for a clean, professional appearance
- Available in 20M and 150M roll lengths
- Suitable for small repairs and larger ongoing jobs
- Helps support compound over seams and cracks
- Easy format for trade and DIY repair tasks
- Useful for wall repair and surface preparation work
- Choose the length that fits your workload

Key Features

- Fiberglass Material — Made from fiberglass to provide a reinforcing layer for joints, seams and repair sections.
- Visible Mesh Structure — The open grid pattern shown on the tape helps create stable coverage across repair areas.
- Versatile 50mm Width — A practical width for common joint reinforcement, patching and finishing preparation tasks.
- Two Roll Lengths — Available in 50mm x 20M and 50mm x 150M to suit occasional repairs or higher-volume work.
- White Finish — White tape keeps a clean, consistent look when used across repair and finishing applications.
