

Kseibi Foam Plastering Trowel with Wooden Handle

Smooth finishing with sponge-faced control

Kseibi

Highlights

- Rubber sponge face for smooth finishing work
- Natural-colour wooden handle for comfortable grip
- Glossy surface base supports easy movement
- Suitable for plastering, tiling and grouting tasks
- Helps refine surfaces with even pressure
- Rectangular face offers broad surface contact
- Orange sponge edge is easy to identify on site
- Available in 10 x 24cm and 14 x 21cm
- Useful for trade work and serious DIY projects
- Simple, practical design for controlled hand finishing

Key Features

- Rubber sponge working face — The rubber sponge material is designed for smoothing and finishing surfaces with controlled contact and a consistent feel.
- Comfortable wooden handle — A natural-colour wooden handle provides a secure, familiar grip for better control during repeated finishing passes.
- Glossy surface base — The glossy base supports the sponge assembly and helps the trowel move smoothly as you work across the surface.
- Made for finishing tasks — Ideal for plastering, grout work and tile-related finishing where a sponge-faced trowel helps clean up and refine results.
- Two size options — Available in 10 x 24cm and 14 x 21cm to suit different working styles, surface areas and job requirements.
