

Kseibi 1/2 in. Drive Metric Deep Hex Socket

Deep reach for recessed fasteners

Kseibi

Highlights

- Deep socket design reaches recessed nuts and bolts
- 1/2 in. drive suits common ratchets and accessories
- Metric hex socket for secure fastener engagement
- Made from chrome vanadium for dependable strength
- Chrome plated finish for a clean professional look
- Ideal for garage, workshop, and site maintenance
- Useful on protruding studs and hard-to-reach fixings
- Available in 10mm, 14mm, 15mm, 17mm, 18mm, and 19mm
- A practical addition to any metric socket setup
- Supplied in hanging card packing for easy storage

Key Features

- Deep socket profile — Designed to reach recessed fasteners and work over protruding studs where standard sockets may fall short.
- 1/2 inch drive fit — Made for use with 1/2 inch drive ratchets and compatible fastening tools in professional and home workshops.
- Chrome vanadium construction — Built from chrome vanadium for reliable strength and durability during repeated fastening tasks.
- Chrome plated finish — The plated surface gives a neat finish that is easy to wipe down after use.
- Metric size options — Available in 10mm, 14mm, 15mm, 17mm, 18mm, and 19mm to cover a practical range of common metric fasteners.
