

KSEIBI Segmented Hot-Pressed Diamond Cutting Disc

Fast-cutting segmented diamond performance

Kseibi

Highlights

- Hot-pressed segmented diamond saw blade
- Available in sizes from 105 x 16 mm to 230 x 22.2 mm
- Segmented rim helps clear debris during cutting
- Suitable for wet or dry use as shown on the blade
- Polished surface finish
- 7 mm blade head height on specified variants
- Selected sizes include reducing washers
- Designed for dependable construction cutting tasks
- Double blister card packed on listed variants
- Premium KSEIBI disc for professional tool setups

Key Features

- Segmented diamond rim — The segmented edge is designed to support efficient material removal and improved debris clearance during the cut.
- Hot-pressed construction — Hot-pressed diamond blade construction provides a robust cutting accessory suited to regular trade and jobsite use.
- Wet or dry use — The product image indicates wet or dry operation, giving you flexibility to work with the setup and conditions on site.
- Multiple size options — Choose from 105 x 16 mm, 115 x 22.2 mm, 125 x 22.2 mm, 180 x 22.2 mm and 230 x 22.2 mm variants.
- Fitment support on selected variants — Several sizes include reducing washers to help adapt bore fitment for compatible tools and applications.
