

Kseibi HSS Step Drill Bit Set - Inch Sizes

One bit, multiple inch sizes

Kseibi

Highlights

- Made from #4241 high speed steel
- Black oxide surface finish
- Covers multiple hole sizes with one bit
- Available from 1/8 inch up to 1-3/8 inch
- Clear step size markings aid accuracy
- Hex shank design shown for secure chuck grip
- Ideal for enlarging holes in stages
- Reduces bit changes during drilling tasks
- Multiple step-count options to suit the job
- Supplied in blister pack or plastic case by variant

Key Features

- High speed steel construction — Made from #4241 HSS for a dependable balance of durability and everyday drilling performance.
- Black oxide finish — The black oxide surface finish helps protect the bit and gives it a professional workshop-ready look.
- Multiple inch size ranges — Choose from six variants covering sizes from 1/8 inch to 1-3/8 inch to match your application.
- Stepped drilling control — The step profile lets you enlarge holes progressively and stop at the required diameter.
- Easy-to-read markings — Visible size markings on the bit help you identify step diameters quickly while you work.
