

Kseibi Industrial Iron & Steel G-Clamp

Firm hold for everyday workshop tasks

Kseibi

Highlights

- Iron and steel construction for dependable strength
- Black powder-coated frame for added protection
- Galvanized thread for smooth screw adjustment
- Classic G-clamp design for versatile holding tasks
- Ideal for gluing, drilling and assembly work
- Cross handle helps tighten and release with control
- Available in sizes from 3 inch 75 mm to 8 inch 200 mm
- Suitable for workshop, site and bench use
- Helps keep workpieces steady during setup and fixing
- Supplied in hanging card packing

Key Features

- Iron and steel build — Made from iron and steel for the durability and strength needed in regular clamping and holding applications.
- Protective coated frame — The black powder coating helps protect the clamp body and gives it a hard-wearing finish for workshop use.
- Galvanized screw thread — A galvanized thread supports smooth adjustment and dependable pressure when tightening onto the workpiece.
- Versatile size options — Available in 3 inch 75 mm, 4 inch 100 mm, 5 inch 125 mm, 6 inch 150 mm and 8 inch 200 mm sizes.
- Workshop-ready control — The threaded screw and tommy bar style handle allow simple tightening, repositioning and release during the job.
