

Kseibi Micro-Foam Nitrile Coated Industrial Gloves

Grip, comfort and control for everyday work

Kseibi

Highlights

- 15-gauge gray nylon liner for a lightweight fit
- Black micro-foam nitrile palm coating improves grip
- Flexible construction supports hand movement
- Palm-dipped design helps maintain dexterity
- Knit wrist offers a secure, stay-put fit
- Suitable for assembly, maintenance and warehouse work
- Comfortable for extended wear across routine tasks
- Coated fingers help with controlled handling
- Available in M (#9) and L (#10)
- Professional Kseibi work glove design

Key Features

- 15-Gauge Nylon Liner — The gray 15-gauge nylon shell gives the gloves a lightweight, flexible feel for day-to-day work.
- Micro-Foam Nitrile Coating — A black micro-foam nitrile coating on the palm adds grip and control where you need it most.
- Dexterity-Focused Fit — The close-fitting construction helps you handle tools, components and materials with better precision.
- Comfortable Knit Wrist — A knitted cuff helps keep the glove in place and adds comfort during repeated movement.
- Useful Size Options — Available in M (#9) and L (#10) to suit common fitting needs on site, in the shop or in storage areas.
