

Kseibi Long Nose Pliers

Precision reach for tight spaces

Kseibi

Highlights

- Long nose jaws reach into narrow, hard-to-access areas
- Made from #45 carbon steel for dependable daily use
- Nickel-plated head for a durable working finish
- Available in 6 inch 160 mm and 8 inch 200 mm sizes
- Ideal for gripping, bending and handling small parts
- Tapered jaw shape supports precise positioning
- Bi-material handles shown for comfortable control
- Useful for repair, workshop and general maintenance tasks
- Compact profile helps with detailed, close-up work
- Supplied in hanging card packing

Key Features

- Long Nose Design — Slim, tapered jaws make it easier to grip, guide and bend materials in confined spaces.
- #45 Carbon Steel Construction — Built from #45 carbon steel for a practical balance of strength and durability in everyday use.
- Nickel-Plated Head — The head features a nickel-plated finish for a clean, durable working surface.
- Two Size Options — Choose between 6 inch 160 mm and 8 inch 200 mm versions to match your reach and control needs.
- Comfortable Grip Shape — The contoured black and orange handle design shown in the image helps provide a secure, controlled hold.
