

Kseibi Long Reach Cut and Hold Bypass Pruner

Reach higher, prune cleaner

Kseibi

Highlights

- Long reach pruner for higher branches and stems
- Cut and hold head helps control cut material
- Bypass style pruner suits live plant growth
- Lightweight aluminum pole for easier handling
- Available in 1.0m, 1.5m and 2.0m sizes
- Orange head is easy to spot while working
- Foam grip section adds comfort in use
- Helps reduce stretching and ladder use
- Good for shrubs, borders and light branch pruning
- Designed for controlled trimming from the ground

Key Features

- Long Reach Design — Extends your pruning range so you can tackle higher growth from the ground with better comfort and control.
- Cut and Hold Action — The head is designed to cut and retain plant material, helping with tidier, more precise pruning.
- Bypass Pruner Head — Well suited to pruning live stems and green growth where a clean cutting action is preferred.
- Aluminum Pole Construction — The aluminum pole keeps the tool lighter to handle during routine garden maintenance.
- Choice of Lengths — Available in 1.0m, 1.5m and 2.0m options so you can match the tool to your reach needs and workspace.

Variants & References

size	Internal Ref.
