

Kseibi Magnetic Nut Setter Bit 65mm with 1/4" Quick-Change Shank

Magnetic hold for faster fastening

Kseibi

Highlights

- Magnetic design helps hold fasteners in place
- 65 mm length offers useful reach for fastening tasks
- 1/4" quick-change shank for fast bit swaps
- Suitable for compatible drills and drivers
- 40Cr construction for dependable daily use
- Chrome Vanadium listed in shared specifications
- Sandblasted finish on specified variants
- Designed for driving hex head screws and nuts
- Available in metric and imperial size options
- Blister card packed for retail-ready presentation

Key Features

- Magnetic Fastener Retention — The magnetic tip helps hold hex fasteners securely for easier pickup, steadier starts and fewer dropped screws or nuts during installation.
- 1/4" Quick-Change Shank — A 1/4" quick-change shank allows fast, convenient swaps between bits when using compatible drills, drivers and bit holders.
- 65 mm Working Length — The 65 mm length provides a practical balance of reach and control for common fastening work in workshops, on site and during maintenance.
- Durable Steel Build — Made with 40Cr and listed with Chrome Vanadium construction in the technical data, this nut setter is built for regular professional use.
- Wide Size Selection — Available in sizes from 6 mm to 17 mm, plus 1/4", 5/16" and 3/8", making it easy to match the tool to your fasteners.
