

Kseibi Magnetic Welding Holder

Hold, align and weld with confidence

Kseibi

Highlights

- ❑ Magnetic steel holder for welding, soldering and assembly work
- ❑ Available in 25 lb, 50 lb and 75 lb holding strengths
- ❑ Helps keep steel parts aligned during fit-up
- ❑ Arrow-style body supports quick, easy positioning
- ❑ Orange finish stands out clearly on the workbench
- ❑ Useful for fabrication, repair and workshop tasks
- ❑ Reduces the need to hand-hold parts during setup
- ❑ Center hole aids handling and placement
- ❑ Built from magnetic steel for repeated shop use
- ❑ Supplied in blister card packing

Key Features

- ❑ Magnetic steel construction — Made from magnetic steel to provide dependable holding support for ferrous metal parts during setup and joining.
- ❑ Three size options — Choose from 3 inch 25 lb 12 kg, 4 inch 50 lb 22 kg or 5 inch 75 lb 33 kg to suit different jobs.
- ❑ Hands-free positioning — Helps hold workpieces in place so you can focus on alignment, tack welds and cleaner assembly.
- ❑ Workshop-friendly design — The compact body with visible center hole is easy to handle, position and remove between tasks.
- ❑ High-visibility finish — Finished in orange plastic 158C for easy spotting on benches, carts and busy fabrication areas.
