

Kseibi Pointed Cold Chisel with Hand Guard

Protected grip for controlled striking

Kseibi

Highlights

- Made from carbon steel for dependable strength
- Pointed tip focuses impact for breaking and chipping
- Black powder-coated surface finish
- Protective hand guard helps shield fingers
- Textured grip supports secure handling
- Useful for masonry, concrete edge and metal work
- Available in 250 x 18 mm and 300 x 18 mm
- Designed for controlled striking tasks
- Long profile helps reach confined areas
- Practical choice for construction and maintenance

Key Features

- Carbon steel construction — Built from carbon steel to provide the strength needed for repeated striking, breaking and chipping work.
- Pointed working end — The pointed tip helps concentrate force into a smaller area for starting cracks, channels and removal work.
- Black powder-coated finish — The black powder-coated surface gives the tool a durable, jobsite-ready finish.
- Integrated hand guard — A wide protective guard helps keep your hand separated from the striking zone during hammer use.
- Two size options — Choose between 250 x 18 mm and 300 x 18 mm to match your reach and handling preference.
