

Kseibi Metric Ratcheting Combination Wrench

Fast ratcheting action for everyday metric fastening

Kseibi

Highlights

- CR-V steel construction for dependable everyday strength
- Chrome-plated finish helps resist wear and wipes clean easily
- Ratcheting ring end speeds up repetitive fastening
- Open end allows quick placement on nuts and bolts
- Metric size options from 8mm to 24mm
- Useful for automotive, workshop and household repairs
- Slim wrench profile helps access tighter spaces
- Combination design adds versatility to one tool
- Single-wrench format is easy to store and carry
- Ideal for replacing missing sizes in a metric set

Key Features

- CR-V Steel Build — Made from CR-V steel for reliable strength and durability in regular repair and maintenance work.
- Chrome-Plated Surface — The chrome-plated finish provides a clean professional look and a smoother surface that is easy to wipe down.
- Ratcheting Ring End — The ratcheting box end helps you keep turning fasteners faster with less need to lift and reposition the wrench.
- Open-End Access — The open end makes it easy to slip onto compatible nuts and bolts for quick starts and simple adjustments.
- Wide Metric Size Range — Available in 8mm, 9mm, 10mm, 11mm, 12mm, 13mm, 14mm, 15mm, 16mm, 17mm, 18mm, 19mm, 22mm and 24mm.
