

Kseibi 8-Piece Ratcheting Combination Wrench Set

Fast ratcheting action for everyday fastening

Kseibi

Highlights

- 8-piece ratcheting combination wrench set
- Made from chrome vanadium steel
- Chrome-plated surface helps resist corrosion
- Ratcheting ring end speeds up repetitive turns
- Open end allows quick placement on fasteners
- Available in metric 8 - 17 mm
- Also available in SAE 1/4" - 11/16"
- Supplied in a compact storage holder
- Keeps wrenches organized and easy to carry
- Suitable for garage, workshop and maintenance use

Key Features

- Chrome Vanadium Construction — Built from chrome vanadium for dependable strength and durability in regular fastening work.
- Ratcheting Combination Design — Combines an open end with a ratcheting ring end for flexible use and faster turning.
- Chrome-Plated Finish — The chrome-plated surface supports corrosion resistance and gives the set a clean, polished look.
- Two Size System Options — Choose the set that suits your work: metric 8 - 17 mm or SAE 1/4" - 11/16".
- Organized Set Storage — Comes in a dedicated holder that keeps all 8 wrenches together for storage, transport and quick selection.
