

Kseibi Hard Rubber Mallet with Wooden Handle

Controlled force, reduced surface marking

Kseibi

Highlights

- Hard rubber head for firm, controlled strikes
- Black hard tip helps reduce visible marking
- Wooden handle offers a classic, comfortable feel
- Ideal for assembly, fitting and alignment tasks
- Broad striking faces support even contact
- Available in 8OZ, 12OZ, 16OZ, 24OZ and 32OZ
- Useful where metal hammers are too aggressive
- Suitable for workshop, DIY and maintenance jobs
- Simple durable design for everyday toolboxes
- Kseibi quality for practical hand tool performance

Key Features

- **Hard Rubber Head** — Made from hard rubber to deliver solid striking performance with more surface protection than a metal hammer.
- **Black Hard Tip** — The black head is designed for impact tasks where you want controlled force and reduced visible marking.
- **Wooden Handle** — A wooden handle provides a traditional grip, balanced handling and dependable control during repeated use.
- **Range of Sizes** — Available in 8OZ, 12OZ, 16OZ, 24OZ and 32OZ so you can match the mallet to the job.
- **Versatile Workshop Use** — Well suited to tapping, positioning, fitting and general adjustment work in the shop, garage or home.
