

KSEIBI Soft White Rubber Mallet with Wooden Handle

Soft strikes for controlled work

Kseibi

Highlights

- Soft rubber head helps reduce marking on surfaces
- White soft tip suits cleaner contact applications
- Wooden handle offers a classic, comfortable grip
- Ideal for controlled striking and alignment work
- Useful for fitting, seating, and adjusting parts
- Cylindrical head provides a broad striking face
- Available in 8OZ, 12OZ, 16OZ, 24OZ, and 32OZ
- Good choice for workshop, site, garage, or home use
- Designed for jobs needing gentler impact than metal hammers
- Straightforward hand tool for professional and DIY tasks

Key Features

- Soft White Rubber Head — The soft rubber striking head is designed for controlled impact where surface protection matters.
- White Soft Tip — The white tip provides a cleaner contact surface and is suited to applications where visible marking is a concern.
- Wooden Handle — A wooden handle gives the mallet a familiar feel and dependable handling for repeated everyday use.
- Broad Striking Face — The head shape shown offers a wide contact area for steadier, more even strikes during fitting and adjustment.
- Five Weight Options — Choose from 8OZ, 12OZ, 16OZ, 24OZ, and 32OZ to match lighter assembly jobs or heavier striking needs.
