

Kseibi Square Tip Bricklaying Trowel with Wooden Handle

Straight edges, controlled mortar work

Kseibi

Highlights

- Square tip blade for straight-edge mortar work
- Carbon steel cutter head for dependable strength
- Polished surface helps smooth material release
- Natural-color wooden handle for a classic grip
- High quality tool steel construction
- Suitable for bricklaying and general masonry
- Available in 18 cm and 20 cm sizes
- Rigid shank supports controlled application
- Easy to clean after mortar and plaster use
- Good for shaping, spreading and trimming mortar

Key Features

- Square Tip Blade — The square tip shape helps create neat lines, tidy edges and controlled mortar placement for brick and block work.
- Carbon Steel Head — A carbon steel cutter head provides the durability needed for regular masonry tasks and repeated jobsite use.
- Polished Finish — The polished surface supports smoother movement through mortar and makes cleanup simpler after use.
- Wooden Handle — The natural-color wooden handle delivers a traditional in-hand feel with comfortable control during extended work.
- Two Size Options — Choose between 18 cm and 20 cm versions to match your preferred reach, handling and application style.
