

Kseibi Steel Flat File

Controlled filing for clean, straight results

Kseibi

Highlights

- Made from T12 carbon steel
- Flat file profile for straight edges and flat surfaces
- Suitable for shaping, smoothing and finishing tasks
- Available in 6 inch 150 mm and 8 inch 200 mm sizes
- Contoured handle supports a secure grip
- Bi-material style black and orange handle design
- Useful for workshop, garage and site repairs
- Helps refine rough edges with controlled strokes
- 8 inch 200 mm variant comes in double blister packing
- Designed for reliable everyday hand filing work

Key Features

- T12 carbon steel construction — Made from T12 carbon steel for dependable durability in regular filing, shaping and finishing tasks.
- Flat file design — The flat profile is suited to smoothing broad surfaces, straight edges and other areas that need an even finish.
- Comfort-focused handle — The contoured handle shown in the image is designed to improve grip and help maintain control during use.
- Two practical size options — Available in 6 inch 150 mm and 8 inch 200 mm sizes, making it easier to match the tool to the job.
- Ready for general workshop use — A practical choice for repair, maintenance and fabrication work where controlled manual material removal is needed.
