

KSEIBI PVC Tower Pincer

Built for grip, pull and control

Kseibi

Highlights

- Made from #55 carbon steel
- Black surface with polished head
- Smooth PVC-coated orange handles
- Built for gripping, pulling and twisting
- Long handles help improve leverage
- Available in 8" 200 mm and 9" 220 mm
- Bright handle color is easy to spot
- Comfortable grip for repeated use
- Suitable for workshop and site tasks
- Supplied in hanging card packing

Key Features

- Carbon Steel Construction — Manufactured from #55 carbon steel for dependable strength and durability in regular hand tool use.
- Polished Working Head — The polished head supports a clean, practical finish where the tool meets the workpiece.
- Protective Surface Finish — A black surface finish on the body gives the tool a durable, work-ready appearance.
- PVC-Coated Handles — Smooth orange plastic-coated handles provide a comfortable hold and better control during use.
- Two Useful Sizes — Choose between 8 inch 200 mm and 9 inch 220 mm sizes to match your preferred reach and leverage.
