

Kseibi Twisted Steel Cup Brush

Built for aggressive surface cleaning

Kseibi

Highlights

- Twisted steel wire for demanding cleaning work
- Cup brush shape covers broad surface areas
- Suitable for rust, scale and coating removal
- Available in 3", 4" and 5" size options
- M14 fitting options for compatible tools
- 0.5 mm wire thickness on selected variants
- Steel construction for workshop durability
- Orange cup body is easy to spot on the bench
- Good for prep before painting or refinishing
- Supplied in double blister packing

Key Features

- Twisted steel wire — The twisted wire design is made for tougher brushing action on stubborn rust, scale and surface contamination.
- Cup brush profile — Its cup-shaped form provides wide contact across the work surface for efficient cleaning and preparation.
- Multiple size options — Choose from 3 inch, 4 inch and 5 inch variants to better match the size of the task and working area.
- M14 fitting availability — M14 thread options support secure attachment on compatible power tools for stable, confident use.
- Protected retail packing — Double blister packing helps protect the brush in storage and keeps it ready for workshop or trade use.
