

Kseibi Level 5 Cut Resistant Nitrile Coated Gloves

Level 5 protection with confident nitrile grip

Kseibi · 441022

Highlights

- Level 5 cut resistant protection for demanding tasks
- 13-gauge gray polyester liner for flexible wear
- Polyethylene content supports cut resistance
- Black nitrile dip coating improves grip
- Coated palm and fingers for durable contact areas
- Knit wrist helps keep debris out
- Comfortable fit for handling tools and materials
- Suitable for workshop, warehouse and site use
- Speckled gray shell with black coated finish
- Available in standard EU sizes

Key Features

- Level 5 Cut Resistance — Designed for tasks where exposure to sharp edges and abrasive materials calls for dependable hand protection.
- 13-Gauge Knit Liner — The gray 13-gauge polyester liner offers a close, flexible fit that supports comfort during active work.
- Nitrile Coated Surface — Black nitrile dip coating on the working area helps improve grip and adds durability where the glove sees the most wear.
- Polyethylene Reinforcement — Polyethylene content contributes to the glove's protective performance while maintaining practical day-to-day usability.
- Secure Knit Wrist — The extended knit cuff helps the glove stay in place and provides a neat fit around the wrist during repetitive tasks.
