

KSEIBI Velcro Backing Pad with M14 Adapter

Secure grip for sanding and polishing discs

Kseibi

Highlights

- Hook-and-loop backing for quick disc changes
- Black PP and red EVA construction
- Includes M14 to 8 mm round shank adapter
- M14x2 flange for compatible tool fitting
- Available in 115 mm, 125 mm and 150 mm sizes
- EVA layer helps provide cushioned support
- Designed for sanding and polishing tasks
- Helps maintain even contact on the work surface
- Suitable for workshop and site use
- Simple, practical accessory for controlled finishing

Key Features

- PP and EVA Construction — Built from black PP with a red EVA layer to combine stable backing with cushioned support during sanding and polishing.
- Hook-and-Loop Surface — Velcro-style attachment allows fast fitting and removal of compatible discs and pads, helping reduce downtime between changes.
- Adapter Included — Supplied with an M14 to 8 mm round shank adapter for added flexibility when setting up with compatible tools.
- M14x2 Flange Fitment — The M14x2 flange provides a secure connection for compatible applications where dependable mounting matters.
- Three Size Options — Available in 115 mm, 125 mm and 150 mm versions so you can choose the pad size that matches your accessory and task.
