

Kseibi Chrome-Plated Vernier Caliper

Reliable manual measurement for everyday workshop use

Kseibi

Highlights

- Available in 0-150 mm, 0-200 mm, 0-250 mm and 0-300 mm sizes
- Chrome-plated surface finish for durability
- 150 mm version made from high quality tool steel
- 200 mm, 250 mm and 300 mm versions in high carbon steel
- Manual vernier format for direct measurement reading
- Rigid beam supports stable measuring control
- Sliding scale assembly for smooth adjustment
- Suitable for workshop, maintenance and inspection tasks
- Clear linear scale shown on the beam
- Ideal for checking external dimensions on parts and materials

Key Features

- Multiple Size Options — Choose from 150 mm, 200 mm, 250 mm or 300 mm measuring ranges to suit small parts, longer components and general workshop work.
- Chrome-Plated Finish — The chrome-plated surface finish helps protect the caliper and supports clear scale visibility in regular use.
- Durable Steel Construction — Built from high quality tool steel in the 150 mm version and high carbon steel in the larger sizes for dependable day-to-day performance.
- Manual Vernier Operation — A straightforward mechanical format gives you direct control over measurement positioning without batteries or electronics.
- Workshop-Ready Design — The long beam, measuring jaws and sliding carriage shown in the image make it a practical choice for fabrication, maintenance and inspection tasks.
