

Kseibi Cow Split Leather Welding Apron 60 x 90 cm

Leather protection for serious metalwork

Kseibi · 441750

Highlights

- Made from durable cow split leather
- 60 x 90 cm size for broad front coverage
- Suitable for welding and grinding tasks
- Helps shield clothing from sparks and debris
- Full-length design covers chest and legs
- Tan leather with yellow stitching detail
- Black straps complete the practical design
- Built for workshop, garage and site use
- Simple protective layer for daily metalwork
- Professional look with rugged leather build

Key Features

- Cow Split Leather Build — Made from cow split leather for a durable, work-focused apron suited to welding and metalworking tasks.
- Broad Protective Coverage — The 60 x 90 cm apron size helps protect the front of the body from chest to lower leg area.
- Made for Hot Work — A practical choice for welding, grinding and fabrication environments where sparks and debris are common.
- Workshop-Ready Design — The straightforward full-length shape is easy to use in garages, workshops and industrial settings.
- Distinctive Finish — Tan leather, yellow sewing thread and black straps give the apron a clear, professional workshop appearance.
