

Kseibi 50 cm PVC Traffic Cone with Reflective Collar

Clear safety marking, day or night

Kseibi · 453015

Highlights

- 50 cm cone height for clear, noticeable marking
- PVC construction for everyday site and facility use
- Reflective collar helps improve low-light visibility
- Bright orange-red finish stands out clearly
- Suitable for traffic guidance and hazard marking
- Useful for warehouses, car parks and work zones
- Wide base design helps stable ground placement
- Easy to move and reposition as needed
- Good for indoor and outdoor temporary use
- Simple way to define restricted or caution areas

Key Features

- 50 cm Safety Marker — Provides a visible, practical height for directing attention to hazards, routes and restricted zones.
- PVC Construction — Made from PVC for dependable everyday use in temporary traffic control and area marking tasks.
- Reflective Collar — The reflective collar improves visibility in dim conditions and under headlights or work lights.
- Wide Base Profile — The broad square base shown in the image helps the cone sit securely when placed on the ground.
- Versatile Site Use — Suitable for maintenance, parking management, cleaning zones, warehouses and general safety marking.
