

Kseibi 5-Piece Metal Burr Drill Bit Set with Plastic Case

Shape, deburr and refine with control

Kseibi · 598505

Highlights

- 5-piece metal burr drill bit set
- Supplied in a hard plastic storage case
- Suitable for shaping and deburring metal
- Mixed burr profiles for varied tasks
- Helps refine edges, contours and cut-outs
- Compact case keeps pieces organised
- Easy to store in a toolbox or workshop
- Quick visual selection of each burr
- Useful for maintenance and fabrication work
- Designed for controlled detail finishing

Key Features

- 5-Piece Set — Includes five metal burr drill bits for a practical range of shaping and finishing tasks.
- Mixed Burr Profiles — Different head shapes help you work on contours, edges, slots and detailed areas with better access.
- Made for Metalworking — Well suited to deburring, smoothing and refining metal parts during fabrication, repair and maintenance.
- Protective Plastic Case — A rigid case keeps the burrs stored together, protected and easy to transport between jobs.
- Organised Layout — Each burr has its own position in the case for quick identification and faster accessory changes.
