

Kseibi SDS-Plus to 1/2 in.-20 UNF Chuck Adaptor

Convert SDS-Plus for Chuck Use

Kseibi · 607011

Highlights

- SDS-Plus adaptor for 1/2 in.-20 UNF chuck connection
- Made from carbon steel for dependable durability
- Bright finish for a clean, professional appearance
- Helps expand the use of your SDS-Plus drill
- Designed for secure adaptor-to-chuck fit
- Useful for workshop, site and maintenance tasks
- Ideal when converting to a threaded chuck setup
- Compact single-piece adaptor body
- Suitable for trade professionals and DIY users
- Practical accessory for broader drilling flexibility

Key Features

- **SDS-Plus Compatibility** — Designed with an SDS-Plus shank style to connect with compatible drills quickly and securely.
- **1/2 in.-20 UNF Thread** — Provides the correct threaded connection for use with compatible 1/2 in.-20 UNF drill chucks.
- **Carbon Steel Construction** — Made from carbon steel to offer the strength and durability needed for repeated workshop and jobsite use.
- **Bright Finish** — Finished in bright steel for a clean look and a professional, hardware-grade appearance.
- **Versatile Drill Conversion** — Helps turn an SDS-Plus drill into a more flexible setup for tasks that call for a threaded chuck arrangement.
