

Kseibi 5-Piece Crimped Brass-Coated Wire Brush Set, 6 mm Shank

Five brush shapes for versatile surface prep

Kseibi · 663205

Highlights

- 5-piece wire brush set for varied cleaning tasks
- Brass-coated, copper-plated wire construction
- Crimped wire helps with controlled brushing action
- 0.3 mm wire thickness for practical surface prep
- Includes multiple brush shapes in one set
- Suitable for flat areas, edges and corners
- Useful for rust, paint residue and dirt removal
- 6 mm shank fits compatible power tools
- Good for workshop, garage and site maintenance
- Compact set for general-purpose metal cleaning

Key Features

- Five-Piece Versatility — Includes five brushes so you can choose a suitable shape for broad surfaces, edges, corners and more detailed areas.
- Crimped Wire Design — Crimped bristles provide a flexible brushing action that helps maintain control on uneven or contoured surfaces.
- Brass-Coated Wire — Built with brass-coated, copper-plated wire for dependable cleaning and surface preparation on a range of maintenance jobs.
- 0.3 mm Wire Thickness — The specified 0.3 mm wire offers a practical balance for everyday brushing, debris removal and prep work.
- 6 mm Shank Fit — Designed with a 6 mm shank for use with compatible drills and rotary tools in workshop or jobsite settings.
