

Kseibi Keyed Drill Chuck 2-13mm 1/2"-20UNF

Secure Grip for Everyday Drilling

Kseibi · 691012

Highlights

- 2-13 mm chuck capacity for versatile bit compatibility
- 1/2"-20UNF connector spec for compatible drill mounts
- Keyed design helps deliver a firm, secure bit grip
- Black and polished finish for a durable workshop look
- Geared collar supports positive key engagement
- Suitable for maintenance, repair and general drilling
- Traditional chuck format for controlled tightening
- Polished drill chuck for dependable everyday use
- Covers both small and larger bits within the stated range
- Good replacement choice for compatible keyed drill setups

Key Features

- 2-13 mm Capacity — Handles a practical bit size range from 2 mm to 13 mm for a wide variety of drilling jobs.
- 1/2"-20UNF Connection — Made for compatible drills using a 1/2"-20UNF connector specification.
- Keyed Tightening — Traditional keyed operation allows secure tightening for confident bit retention during use.
- Black and Polished Finish — Combines a black and polished surface finish with a clean, professional workshop appearance.
- Geared Chuck Body — The visible gear ring is designed for smooth key engagement and controlled adjustment.
