

Kseibi Black Hot Melt Glue Sticks 300 x 11 mm 1kg

Black glue for cleaner-looking dark surface repairs

Kseibi · 692030

Highlights

- Black hot melt glue for dark surfaces and trim
- 300 x 11 mm stick size for compatible glue guns
- 1kg pack suited to frequent use
- Helps create less visible glue lines on black materials
- Long sticks reduce interruptions during application
- Suitable for bonding, filling and repair work
- Uniform cylindrical shape for smooth feeding
- Useful for workshop, craft and maintenance tasks
- Packed in a nylon bag for simple storage
- Kseibi adhesive glue sticks in pure black

Key Features

- Black adhesive finish — The black colour is ideal when working on dark materials, trims or components where a clear glue line would be more noticeable.
- Long 300 mm format — Each stick is 300 mm long, helping reduce the number of stick changes during longer glue runs and repeated applications.
- 11 mm diameter — Made in a 11 mm size for use with compatible hot glue guns that accept this common stick diameter.
- 1kg supply — The 1kg pack gives you a practical quantity for regular workshop, installation, repair or craft use.
- Easy to store — Supplied in a nylon bag, the sticks are simple to keep together and store between jobs.
